Investprop

AI-POWERED PROPERTY CO-INVESTMENT PLATFORM

Own property from R10,000. Earn, track, and trade your stake.

Investprop turns whole-property deals into safe, transparent, fractional opportunities — with ring-fenced SPVs, AI-assisted analysis, tradable share certificates, and bank-grade compliance built in.

Investor Pitch

Confidential

THE OPPORTUNITY

Property builds wealth — but most people can't get in.

Entry-level property needs hundreds of thousands in cash. It's opaque, illiquid, and heavy on compliance. Millions of would-be investors are locked out of the country's most trusted asset class.

High barrier

Full deposits and transfer costs put property out of reach for most.

Opaque & risky

Investors can't see fund usage, structure, or true risk and returns.

No liquidity

Capital is locked for years with no simple way to exit.

THE SOLUTION

One platform for the entire co-investment lifecycle.

Fractional from R10k

Buy a share of a vetted property, held in a ring-fenced SPV.

AI copilots

Deal scoring, portfolio briefs, and distress early-warnings.

Tradable certificates

Verifiable share certificates you can trade for liquidity.

Real distributions

Rental income and gains paid proportionally, with statements.

Compliance built in

FICA, POPIA, FSCA-readiness, and audit trails as standard.

Full transparency

Use-of-funds breakdowns and live campaign progress on every deal.

WHY IT WINS

A defensible, revenue-generating platform.

- **Large, underserved market** — millions locked out of property wealth.
- **Defensible moat** — compliance, AI, and full-lifecycle tooling combined.
- **Multiple revenue lines** — platform fees, management fees, marketplace trades.
- **Regulation-ready** — FSCA-aware design de-risks scaling.
- **Built & deployed** — a working product, not a concept.
