Investprop

PROPERTY & LAND DEVELOPMENT, RENOVATION OR FLIP PARTNERSHIP

PRIVATE & CONFIDENTIAL — PREPARED FOR A PROPERTY OWNER

Turn Your Property or Land Into a Share of a Completed Project

You bring the property or land. We bring the capital, the team and the expertise — and we do everything, whether that means developing, renovating or flipping. You keep **20% equity** in a ring-fenced company that owns the finished project.

Prepared for	**[Landowner Full Name]**

Date	**[Date]**

CONFIDENTIAL — PREPARED SOLELY FOR THE NAMED OWNER

Dear [Owner Name]

Thank you for considering Investprop as a partner for your property at **[Property Address]**. Many owners are sitting on valuable property or land that they cannot unlock — developing, renovating or flipping takes capital, a professional team, approvals, funding relationships and years of risk. Most owners either sell cheaply and watch someone else make the profit, or let the asset sit idle while rates and holding costs mount.

We offer a third way. **You contribute your property or land into a dedicated company (an SPV), and in exchange you receive a 20% shareholding in that company.** Investprop funds and manages the entire project — feasibility, approvals, design, funding, construction or renovation and sales — at our risk and cost. When the project is sold or let, you share in the proceeds as a 20% shareholder, having put in no cash and taken on none of the execution risk.

In one line: You keep ownership upside without selling cheap, without spending a cent, and without lifting a finger — we do everything.

The Offer at a Glance

20%

Your equity
You hold 20% of the ring-fenced SPV that owns the completed development.

R0

Your cash outlay
You contribute only the property or land. No cash, no project costs, no capital calls.

80%

Our contribution
Investprop and co-investors provide 100% of the funding, team and execution for an 80% share.

100%

Done for you
We handle feasibility, approvals, design, funding, building or renovating and selling — end to end.

How It Works — Step by Step

Stage	What happens
1. You submit the property	You provide the property or land details on our platform (or to us directly). No obligation.
2. We assess	We run a feasibility review — zoning, condition, value, development or renovation potential and numbers.
3. Agreement	If it works, we prepare the partnership agreement — pre-filled with your details — which you sign electronically on the app.
4. We form the SPV	A ring-fenced company is incorporated for your project. Your property is contributed into it; you receive 20% of the shares.
5. We develop	We fund it, get the approvals, appoint the team and develop, renovate or flip it. You are kept informed throughout.
6. You share the upside	On sale or rental, proceeds are distributed to shareholders — your 20% included.

Why Owners Choose This

- **You don’t sell cheap.** Instead of a once-off sale at current value, you keep a stake in the far higher *completed* value.

- **You risk no money.** Every rand of project cost and funding is ours. You never receive a capital call.
- **You carry none of the execution burden.** We manage the professionals, the municipality, the bank and the builders.
- **Your asset is ring-fenced.** Your property sits in its own company, legally separated from any other project's liabilities.
- **Full transparency.** You see the cap table, capital movements and distributions through the platform.

Your Property (as we understand it)

Please confirm or correct the details below.

Item	Detail
Owner	**[Full name / entity]**
Property description	**[e.g. 2 ha vacant stand, or 4-bed house to renovate]**
Address	**[Address, City, Province]**
Erf / Portion No.	**[____]**
Extent	**[____ m²]**
Current zoning / use	**[____]**
Estimated property value	**[R ____]**
Proposed project	**[e.g. residential estate — ____ units, or full renovation]**
Estimated end value (GDV)	**[R ____]**

Illustrative Outcome

For illustration only — not a forecast, promise or guarantee of return. Actual outcomes depend on the project.

Scenario	Amount
Raw property value today (what a buyer might pay you now)	**[R ____]**
Estimated completed project value (GDV)	**[R ____]**
Estimated net profit after all costs & funding	**[R ____]**
Your 20% share of net proceeds (illustrative)	**[R ____]**

The point: a 20% stake in a completed project frequently exceeds what you would receive from selling the property or land outright — with none of your own money at risk.

The Partnership Terms (Plain-Language Summary)

The full legal terms are in the *Property / Land Contribution & Development Partnership Agreement*, which you will sign electronically on the app. In plain language, the key terms are:

Term	What it means
Exclusive contribution undertaking & mandate	You irrevocably undertake to contribute the property into the SPV and grant Investprop the exclusive, irrevocable mandate to develop, renovate or flip it through the SPV, so we can commit real money and time with confidence.
Exclusivity / lock-out	While we are working on the project you won't sell, encumber or shop the property to others.
Interest noted against title	Our interest may be registered against the property's title to protect the work we are funding.
Power of attorney	You authorise us to sign the planning, municipal and transfer documents needed to progress the project.
You contribute only the property	No cash from you, ever. You receive 20% of the SPV; we and our co-investors hold 80%.
We do everything	Funding, approvals, professional team, construction and sales are all our responsibility and at our risk.
Protection of our spend	If you withdraw or breach after we've started spending, you reimburse our costs and a break fee, and any value uplift we created — so neither side walks away from work already done.
Transparent distributions	Proceeds repay funding and costs first, then are shared pro-rata — your 20% included.
Your return isn't guaranteed	Like any equity, your return depends on the project outcome. This is a partnership, not a loan.
POPIA & electronic signature	Your information is processed lawfully for the project; the agreement is signed electronically and is binding.
Independent advice	You are encouraged to obtain independent legal advice before signing. We want an informed, willing partner.

This summary is for convenience only; the signed agreement governs. Nothing in this proposal is an offer capable of acceptance, financial advice, or a guarantee of return.

Next Steps

- Confirm the property details above.
- We complete a feasibility review and share the numbers with you.
- We send you the pre-filled partnership agreement to review and sign on the app.
- We incorporate the SPV, contribute the property, and begin the project.

We would welcome the opportunity to partner with you. If you have any questions, please contact **[Your Name]** on **[Phone]** or **[Email]**.

Yours sincerely,

_____
